

INNOVATION, EXPERIENCE, COMMITMENT

URL Pharma is a best-in-class pharmaceutical company achieving sustainable growth by developing and commercializing safe, novel therapeutics and exclusive technologies. We partner with our clients to identify unmet medical needs, increase drug safety, and improve patient outcomes. Many of these efforts also enhance product lifecycle management.

The leader in drug delivery technology

- Extensive portfolio of proven proprietary pharmaceutical manufacturing technologies
 - To improve the safety and efficacy profile of existing drugs
 - To help develop product lifecycle strategies and solve product lifecycle challenges
 - To develop next generation therapies
- Demonstrated record of success
 - Over 60 years of experience in pharmaceutical development and manufacturing
 - Multiple discoveries patented (or pending) for marketed products in a variety of drug classes
- A team of scientists with a proven record of solving technical challenges thought to be unsolvable
- Strong financial foundation
 - URL Pharma has a long-term track record of robust financial performance

Proven performance of robust solutions

- Comprehensive, proprietary lifecycle management tools include:
 - PRISM™ Program to Improve the Safety of Medication through valuable metabolic discoveries that enhance your product and its lifecycle
 - Z-Burst™ zero-order release technology for controlled delivery
 - NanoBurst™ nanoparticle technology for maximizing drug solubility
 - MultiBurst™ multiparticulate technology for optimal site-specific drug delivery

INNOVATION, EXPERIENCE, COMMITMENT

Efficient, cost-effective turn-key capabilities

- Complete dosage form development from concept to commercial scale manufacturing:
 - Preclinical/clinical studies (Phase I, II, and III)
 - Complete chemistry manufacturing and controls (CMC) studies
 - IND and NDA application preparation and submission
 - Launch preparation
 - Commercial manufacturing (solid oral dosage forms)
- We provide turn-key solutions or partner with you to address specific needs
- State-of-the-art, expansive contract manufacturing capabilities available
- URL Pharma technology can also be implemented at your facilities using conventional equipment and processes

URL Pharma's proven record of innovative technology and strong commitment to client service are the foundation of success in improving drug delivery, satisfying unmet medical needs, and optimizing patient outcomes.
